10:00AM - 10:30AM

☕ AM Break

Enjoy some refreshments while mingling with Cority partners and peers in the Partner Village.

🩹 What's New in Occupational Health

In this session, you will learn about what's been added to Cority's features over the past year. We will take you through the latest capabilities and new features. This highly useful session will focus on the Occupational Health Suite, as well as overall reporting and platform features.

🍃 What's New in Safety and Environmental

In this session, you will learn about what's been added to Cority's features over the past year. We will take you through the latest capabilities and new features for EHS. This highly useful session will focus on the Safety and Environmental suite, as well as overall reporting and platform features.

10:30AM - 12:00PM

📊 What's New in Industrial Hygiene

Curious about what we've been up to since last year? In this session, we will take you through the latest capabilities and new features for IH. This highly useful session will focus on the Industrial Hygiene suite, as well as overall reporting and platform features.

⏱️ Future Enhancements in Business Intelligence

Our expert product managers continually strive to make our solution more user-friendly. Who better to help us than our power-users? This session will be a guided discussion on all current planned enhancements and the concepts behind them. This is your opportunity to collaborate with Cority product managers to ensure the platform continues to develop in the right direction. You will be invited to share your comments on additional new features for upcoming releases.

12:00PM - 1:30PM

🍴 Networking Lunch (provided)

Enjoy a buffet lunch on us! This is a great time to talk to partners and peers in our Partner village.

1:30PM - 3:00PM

🩹 Cority User Success Studies: Journey to paperless health center

This presentation will discuss the vision of a paperless health center at NOVA Chemicals and will provide a history of the journey and where we are today in this process using GX2.

NOVA Chemicals®

HML & Rolls-Royce: Working in Partnership

The content of the presentation will touch on the details around HML's relationship / contract with Rolls-Royce, and the journey of continual improvement that they have been on together. The focus will be on workflow management rather than clinical matters. This will reflect on their original Medgate configuration and the improvements and efficiencies that have been made since, with the continual support and enhancements that Cority has offered.

Cority User Success Studies: Applying Cority's Advanced Dashboards at a large scale manufacturing facility

Advanced Dashboard were made available a year ago at all North American Toyota manufacturing locations. This session will cover the application of the Advanced Dashboards including key performance indicator tracking, supporting user responsibilities, and data collection analysis.

1:30PM - 3:00PM

Cority User Success Studies: EHS Excellence with opportunities to correct

Central Arizona Project's EH&S department works collaboratively within the organization to resolve EH&S concerns in the most effective manner possible. CAP's partnership with Cority software has been an instrumental asset to meet the EH&S mission by utilizing inspections and workflows, streamlining processes and providing excellent reporting capabilities to the CAP community.

Leveraging Business Rules to Support Business Processes

How Sobeys Inc. leveraged business rules to standardize processes across the company, including reporting, case closure and support our new chargeback program.

Cority User Success Studies: Implementing Cority at a global chemical company

This presentation will cover the challenges and solutions associated with implementing the Cority system at sites across the globe, merging corporate standards with local regulatory requirements.

🏭 **Cority User Success Studies: Getting data into Cority via web services**

Session description coming soon.

3:00PM - 3:30PM

☕ **PM Break**

Relax and recharge with refreshments in our Partner village!

🧰 **Using the New 'MyCalendar' Module**

This session will showcase the new My Calendar module that will replace the current Scheduling tool. Our expert will take you through a guided tour of the new features and usability improvements. You will also have an opportunity to provide your feedback on future developments of this very important OH module.

🌿 **Reporting and Business Intelligence for the Safety User**

1:30PM - 3:00PM

Here at Cority we understand the importance of being able to generate reports and make sense of all the data that you collect. We've made major advancements and developments in Business Intelligence over the last two years. In this session, you will gain insight and receive guidance on how a safety user can get the most out of their data with the many new and improved functionalities. Best practice examples will be used that will resonate with any Safety professional.

3:30PM - 5:00PM

🏭 **Leveraging Ergonomics Management in Cority**

Ergonomics continues to be an important practice to ensure worker well-being. This highly useful session will feature our experts guiding you through our offerings and how they integrate with other functionalities across the Cority platform.

🎨 **New Mapping Tools: Forms & Questionnaires**

Do you have a paper form or simple questionnaire that employees have to complete as part of a process or procedure? Have you ever thought about how simple your life might be if the form could populate your Cority solution automatically, not having to key in the information? Well, we've granted your wish! In this session, our experts will walk you through these new capabilities and show you how you can take advantage of them.

5:00PM - 8:00PM

Free Evening

Take some time to explore the sights and tastes of the great city of Boston!

Thursday, September 21, 2017

7:00AM - 8:30AM

🍴 **Networking Breakfast**

8:30AM - 10:00AM

Future Enhancements

Our expert Product Managers look to changing regulations and customer requests to help build stories for product enhancements. This session will be a guided discussion on current planned enhancements and the concepts behind them. You will be asked to provide your feedback and ideas to help ensure the platform continues to develop in the right direction, as well as share your comments on additional new features that should be included in upcoming releases.

Expanded Environmental Capabilities

Everyone is excited about how the acquisition of regAction has enabled Cority's core Environmental platform to be enhanced. Our Environmental team will give an in-depth look at Cority's accelerated Environmental roadmap. This session will review the many Environmental applications, including our award winning Management of Change module. Explore the deep environmental capabilities of regAction and learn how they will be integrated into a best in class Environmental solution.

Reporting and Business Intelligence for the IH User

Here at Cority we understand the importance of being able to generate reports and make sense of all the data you collect. We've made major advancements in Business Intelligence over the last two years. In this session, you will gain insight and receive guidance on how an IH user can get the most out of their data with the many new and improved functionalities. Best practice examples will be used that will resonate with any IH professional.

Mobile and Portal Management Roundtable

Our industry experts understand that mobility can be useful in the right situations and circumstances. We also know the importance of having a solution that is easy to use. During this session we will provide visibility to our products and concepts to address these needs. We will look for input and validation to ensure we deliver an optimal solution.

10:00AM - 10:30AM

Networking Break

Enjoy some refreshments with our partners and the Cority team in the Partner Village!

10:30AM - 12:00PM

This is your opportunity to roll up your sleeves alongside your peers and the Cority team. Don't forget to bring your laptop and list of questions with you!

Cority Connect 2017

cority™

10:30AM - 12:00PM

Analytics Product Management Roundtable

There is a lot of buzz in the industry about IOT and Machine Learning. Our experts will be holding a casual session to help de-mystify what it's all about, and what it means for the future of the EHSQ industry.

12:00PM - 1:30PM

Networking Lunch (on your own)

Take the opportunity to check out some of the best eating spots in Boston's Back Bay neighborhood. Invite some of your new friends to join you!

1:30PM - 3:00PM

Reporting and Business Intelligence for the OH User

Here at Cority we understand the importance of being able to generate reports and make sense of all the data you collect. We've made major advancements and developments in Business Intelligence over the last two years. In this session, you'll gain from insight and guidance on how an OH user can get the most out of their data with the many new and improved functionalities. Best Practice examples will be used that will resonate with any OH professional.

The Mobile Industrial Hygienist

Technology has finally caught up with the way we do business. We're developing concepts to allow those non-desk activities to be captured in the field. This session will introduce you to our vision for the use of Mobility with our IH suite. Attendees will have an opportunity to comment on the design of the capabilities planned for Mobile IH.

Future Enhancements

Our expert Product Managers look to changing regulations and customer requests to help build stories for product enhancements. This session will be a guided discussion on current planned enhancements and the concepts behind them. Provide your feedback and ideas to help ensure the platform continues to develop in the right direction. Share your comments on additional new features that should be included in upcoming releases.

Configuring Security for the Cority Platform (Admin/IT)

This session will demonstrate how the various security features throughout Cority can be used to ensure the right users have access to the right information. Cority's robust security tools start at login and continue to site security, module security, case type security, medical security, prohibiting actions, prohibiting views, field level security, etc. Even menus and layouts can be used as a type of security to limit access to certain information.

3:00PM - 3:30PM

PM Break

Enjoy some refreshments with your peers and the Cority team in the Partner Village.

3:30PM - 5:00PM

Interfaces and Integrations

Connection to devices, external agencies, and applications are life savers when it comes to alleviating the administrative burden of daily activities. Cority continues to add to our extensive list of connections to external devices, applications, and agencies. This session will provide information on some of our recent interfaces and integrations. Come prepared to share your recommendations for future interfaces and integrations.

3:30PM - 5:00PM

🌿 Sustainability

Sustainability isn't a buzzword anymore -- it is a standard practice with the top companies in the world. This in-depth session will showcase how recent enhancements in our platform will allow companies to easily define, collect, review, evaluate, aggregate, and communicate company metrics and KPIs or align out-of-the-box with GRI.

🏭 Future Enhancements

Want to know how we keep ahead of the competition and remain the best solution in the industry? Find out in this guided discussion on current planned enhancements and the concepts behind them. Attendees will collaborate with Cority Product Managers to ensure the platform continues to develop in the right direction. Bring your comments on additional new features for upcoming releases.
